PROFILE

ISTQB-certified QA Engineer with 4 years of experience in manual testing of web and mobile products, including Forbes platforms. Experienced in test planning, functional, regression, smoke, sanity and exploratory testing, cross-browser and cross-device testing on iOS and Android, REST API testing with Postman, and defect tracking in Jira within Agile/Scrum teams. I also support test automation with Playwright and TypeScript, and I mentor and on-board new QA team members.

CORE SKILLS

Manual testing: Functional testing, regression testing, smoke testing, sanity testing, exploratory testing, test planning, defect lifecycle, requirements-focused testing

Web and mobile testing: Web UI testing, cross-browser testing, cross-device and cross-platform testing, mobile testing on Android and iOS (TestFlight and Firebase builds)

API and database testing: REST API testing, Postman, Swagger, CRUD validation, response schemas and status codes, Charles, SQL (database validation)

Tools and bug tracking: Android Studio, Xcode, Datadog, Logcat, JMeter (load testing), Git, GitHub, Browser DevTools, Jira, TestRail

Test automation: Playwright, TypeScript/JavaScript, Page Object Model (POM), GitHub Actions, Jenkins (basic)

Methodologies and collaboration: Agile/Scrum, cross-team QA and developer collaboration, QA mentoring, quality improvement

AI tools: Claude, ChatGPT, GitHub Copilot, Cursor

Languages: Armenian (native), English (advanced), Russian (advanced), Hebrew (advanced), Arabic (upper intermediate)

WORK EXPERIENCE

Optimum Partners EVN | Software and Quality Engineer 2022 – Present

- Test Forbes web and mobile products across browsers, Android and iOS, testing subscriptions, covering functional, regression, smoke, sanity and exploratory testing so releases work on every platform
- Plan testing and track defects through their lifecycle in Jira, using Git/GitHub and browser DevTools to investigate and close them
- Test REST APIs directly with Postman and Swagger, catching data and status code issues before they reach users
- Work in Agile/Scrum teams with developers to find root causes and get bugs fixed faster
- Mentor and on-board new QA team members, and lead day-to-day QA work on Forbes projects: assign tasks and track progress
- Release changes and bug fixes to production
- Design and maintain Playwright end-to-end tests in TypeScript using the Page Object Model, making regression testing faster and easier to maintain

Yerevan State University | Hebrew Language Lecturer 2016 – 2024

Hebrew teaching, curriculum planning and documentation.

PROJECTS

demowebshop-POM |github.com/Zaruhi-Antonyan/demowebshop-POM

Automated UI test suite for an e-commerce demo site, built using the Page Object Model design pattern for maintainable, reusable test scripts.

jsonplaceholder-API |github.com/Zaruhi-Antonyan/jsonplaceholder-API

Automated API test suite validating CRUD operations, response schemas and status codes against the JSONPlaceholder REST API.

Booker-API |github.com/Zaruhi-Antonyan/Booker-API

Automated API test suite for a hotel booking service, covering authentication, booking creation, updates and deletion endpoints.

CERTIFICATION AND COURSES

- ISTQB Certified Tester, Foundation Level (CTFL)
- QA Manual, BDG, Yerevan
- QA Automation with Playwright JavaScript/TypeScript, AITC, Yerevan

EDUCATION

One-Year Jewish Studies Program | Paideia – European Institute of Jewish Studies, Stockholm / Jerusalem | 2015 – 2016

Master of Middle East and Regional Studies | Yerevan State University | 2013 – 2015

Arabic Teaching Institute for Non-Arabic Speakers | Damascus, Syria | 2010 – 2011

Bachelor of Arabic Studies | Yerevan State University | 2008 – 2013
